

台灣胸腔暨重症加護醫學會

104 年度胸腔暨重症醫學專科醫師甄試內科影像學考試標準答案

M01: liver cirrhosis and esophageal varices

M02: lung cancer with lymphagitic and hematologic spreading

M03: left pneumothorax

M04: situs inversus, hypoplasia of left 1st rib

M05: congenital cystic adenomatoid malformation

M06: pulmonary sequestration

M07: lung cancer with lung and rib metastasis

M08: bilateral bulla

M09: pulmonary TB

M10: liver abscess, left fibrothorax

M11: military TB

M12: neurofibromatosis, mediastinal tumor and lung metastasis

M13: pulmonary microlithiasis

M14: left pneumothorax

M15: chondrosarcoma

M16: left apex nodule, scoliosis

M17: Kartagener syndrome, lung abscess

M18: bilateral mammoplasty

M19: sarcoidosis

M20: tracheal stenosis by tumor compression

M21: acute diaphragmatic hernia after trauma

M22: esophageal tumor (retrocardiac lesion)

M23: osteolytic lesion of left rib

M24: AV malformation

M25: thymoma with pleural seeding

M26: pulmonary embolism

M27: middle mediastinal tumor (enteric cyst)

M28: Wegener's granulomatosis

M29: Scimitar syndrome (hypoplasia of right pulmonary artery)

M30: pulmonary TB and TB lymphadenitis

M31: teratoma (dermoid cyst)

M32: agenesis of right pulmonary artery

M33: pulmonary hypertension

外科考題

題號	答案
S01	liver cirrhosis and esophageal varices
S02	lung cancer with lymphatic and hematologic spreading
S03	left pneumothorax
S04	situs inversus, hypoplasia of left 1 st rib
S05	congenital cystic adenomatoid malformation
S06	pulmonary sequestration
S07	lung cancer with lung and rib metastasis
S08	bilateral bulla
S09	pulmonary TB
S10	liver abscess, left fibrothorax
S11	miliary TB
S12	neurofibromatosis, mediastinal tumor and lung metastasis
S13	pulmonary microlithiasis
S14	left pneumothorax
S15	chondrosarcoma
S16	left apex nodule, scoliosis
S17	Kartagener syndrome, lung abscess
S18	bilateral mammoplasty
S19	sarcoidosis
S20	tracheal stenosis by tumor compression
S21	acute diaphragmatic hernia after trauma
S22	esophageal tumor(retrocardiac tumor)
S23	osteolytic lesion of left rib
S24	AV malformation
S25	thymoma with pleural seeding
S26	gall stone and left ribs fracture
S27	cystic bronchiectasis
S28	teratoma(dermoid cyst)
S29	middle mediastinal tumor(enteric cyst)
S30	fibrous tumor
S31	LLL lung nodule, bronchiectasis
S32	pulmonary hamartoma
S33	left mastectomy
